

**SAN DIEGO ROOFING CONTRACTORS ASSOCIATION**

### *From the President...*

In the many years that I have been in the roofing industry I have watched the safety regulations evolve and change. The days are over of loading roofs roll by roll up a ladder or being on a three story building installing edge metal with no safety harnesses. One day I saw a guy fall off of a house and the only thing the foreman could say was “You better not come back up empty handed!”

As we all know those days are long gone and safety is of utmost concern. It can get complicated. Are we to follow Fed OSAHA or Cal OSHA? What are the height requirements for fall protection/restraint? Are you in compliance? What is on the horizon as far as new regulations?

Come to the SDRCA dinner meeting on April 9th, 2014 and find out the answers to these questions and any others that you may have. Kirk Herold of Safety Compliance Company will present to the association what Cal OSHA is up to with regards to inspections, height requirements for fall protection, and how to lower your EMR to keep worker comp rate in check.

This should be a very informative meeting and is the reason the SDRCA exists, continuing education on the issues that face our industry. Also this meeting will apply as one meeting credit and one safety credit toward the SDRCA Certified Roofing Contractor program.

There will also be additional updates on Build a Roof and other events that are being planned by the Board of Directors. I am looking forward to seeing you all there.

Fred Bouman, SDRCA President
